We protect®

Health Secure

We know that your health and well-being are important to you. BDO Life can help you prepare for health-related setbacks so you can focus on getting better.

KEY FEATURES

Guaranteed life insurance with critical illness coverage

Built-in Health Guard Rider¹ covers angioplasty, early and intermediate stage critical illnesses

Guaranteed cash payouts (Wellness Fund)

Flexible premium payment options of 10 years, 20 years, or up to age 65

HOW IT WORKS

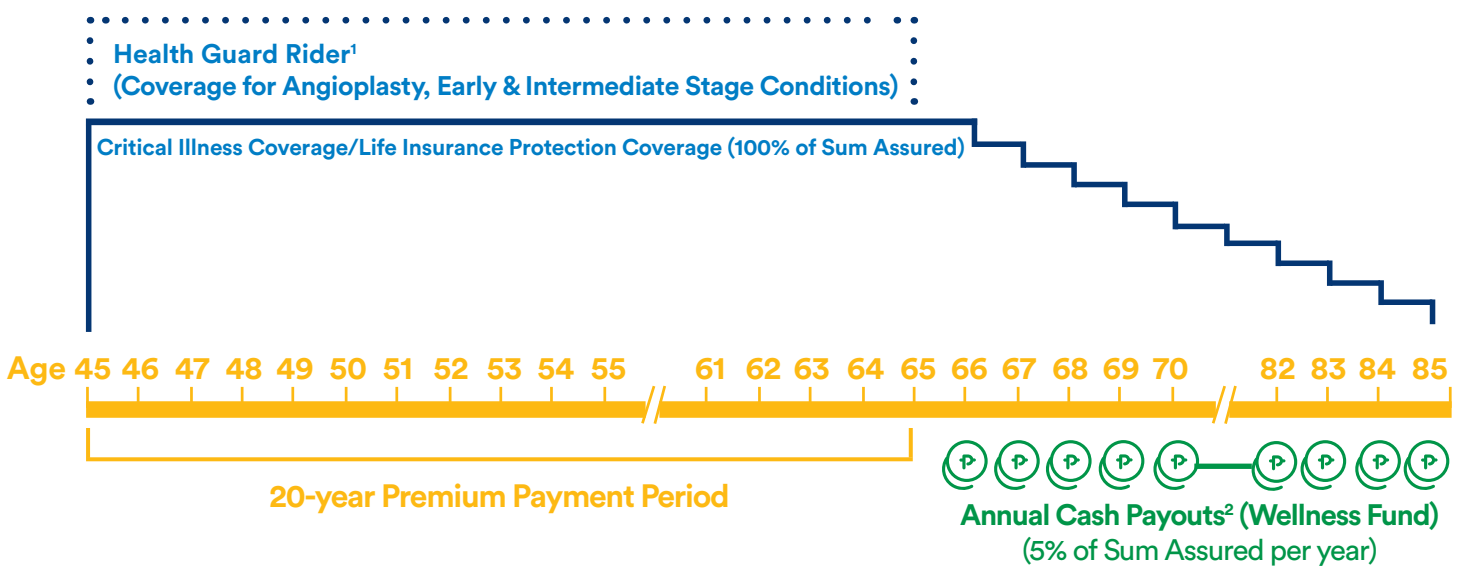

Figure above assumes a 45-year-old issue age and a 20-year premium payment period.

Notes

- ¹ Health Guard Rider is only active throughout the premium payment period. Maximum combined coverage is up to 50% of the Sum Assured for angioplasty, early and intermediate stage conditions.
- ² Each annual payout equivalent to 5% of the Sum Assured reduces the plan's death benefit. This allows you to begin enjoying the full benefits of your plan as early as age 66, while you are alive and well.

Things to remember

- Health Secure is only available in PHP values.
- Illnesses existing within 90 days from effective date for Health Secure, or 180 days from effective date for Health Guard Rider, are not covered.
- Payout of the Critical Illness Benefit under the Health Secure base plan advances the death benefit. Your plan terminates upon receipt of the benefit.
- Enhance your plan with riders. Talk to your FA to determine which riders address your needs best.
- Your insurance plan comes with non-guaranteed policy dividends.
- Health Secure comes with access to Best Doctors, an online platform allowing you to receive second opinion from medical specialists worldwide.
- Health Secure can be applied under Simplified Underwriting.

Prepare for your family's future today!
