Flexible premium payment options of 3, 5, or 10 years

HOW IT WORKS

Notes

- ¹ Should you pass away while your plan is active, your beneficiaries will either receive the guaranteed life insurance protection or your plan's fund value, whichever is higher.
- ² Your policy comes with an investment component that earns potentially higher returns based on market performance. Fund values are not guaranteed.
- ³ The plan provides a non-guaranteed loyalty bonus on the 8th policy year and every 5 years thereafter, subject to qualifying conditions.

Things to remember

- SaveFlex Secure is available in both PHP and USD values.
- You have the option to withdraw your funds at any time but this may be more or less than premiums paid. The death benefit is also reduced at each withdrawal.
- Upon full withdrawal, your plan terminates and your insurance protection ceases.
- Talk to your Financial Advisor on how you can enhance your plan with Riders.
